WINNING

DAHLIAS

Greetings to Our Friends and Patrons:

It is with pleasure that I am sending you my Price List for 1938. Your generous and kind support is thoroughly appreciated and inspires me to continued effort to make available for you only the best Dahlias at prices within reach of every one. Therefore, instead of getting out a fancy catalog, I have prepared this Price List to take its place, and have passed the saving on to every Dahlia lover who places an order with me by reducing my prices, thereby enabling many to enjoy the better Dahlias at prices that fit their pocketbooks.

I have greatly enjoyed reading the many letters I received this past season, telling me of the various successes obtained from stock purchased from me. This was very gratifying, and you can rest assured I will continue to give the best of quality, good service, and give the other fellow the kind of treatment I myself would like to receive. I would like to meet you all personally, and again extend the invitation to those who have not seen our gardens, drop in and let's get acquainted.

Thanking you for the courteous patronage I have enjoyed, and hoping I can serve you again this coming season.

Respectfully yours,

CHARLES SELINGER.

A Kind Word

11:00 A. M., May 28, 1937.

Thanks. More than pleased; and did they come through fine? Yes. Keep me on your mailing list.

Thanks again.

Yours as B-4,

FRANCIS A. MOORE,

Michigan City, Ind.

Or if you do not wish to keep our price list and care to pass it on to some one interested, it will be appreciated.

State and Federal Inspected Roots and Plants

We ship roots and plants that have been inspected and all out of the state orders will be accompanied by a certificate of inspection.

We grow and ship them in 3 x 3 x 3 inch bands which hold twice as much dirt as a 3-inch pot, and it stands to reason they are stronger and better.

IMPORTANT

Time of Shipment. Unless ordered otherwise roots will be shipped between April 15th and May 31st by Parcel Post.

Warning. Do not send cash by mail unless you have it registered.

Terms. Remittance may be made in the most convenient way when sent with order. Or if desired, 25 per cent when order is placed; balance to be paid at time set by you for shipment of stock.

The flowers are of immense size, often 14 inches or over in diameter, and from five to seven inches deep. The color is a rich purplish red. Should be grown to four stems to make these strong enough to hold the flowers. (H. R.).....	.50	.60
DOROTHY STONE (F. & M. 84E), Bloom 9 x 4, Bush 4 ft. Suitable for the garden and show room, although not as spectacular as Kathleen Norris. It is a darker pink and a deeper flower. A good grower with stems long and erect35

EDWARD T. RINDFLEISCH (Rindfleisch 82E), Bloom 9 x 5 Bush 4½ ft. A bright scarlet. The imposing appearance is due mainly to the large, broad petals of the bright flowers held well above the foliage on strong, straight stems. Free bloomer.....	.50

KATHLEEN NORRIS, I. D. (F. & M. 87). Bloom 10x5; bush, 5½ ft. This outstanding exhibition Dahlia is a true rose pink, deepening to mallow pink, with young central petals a lighter shade. Petals are broad and overlap each other. Blooms are held erect on long, strong stems. You will find this Dahlia is still a great prize winner40
KEMP'S BLACK KNIGHT (Kemp, 1935), I. D. The nearest we can come to it is dark velvety maroon, almost black. The flowers are of great size, often up to 14 inches in diameter, and are held high above the foliage on thick stiff stems75
LORD OF AUTUMN, I. D. (90), LL., 5 ft. We again take pleasure in calling your attention to this great yellow Dahlia. Its rich golden yellow flowers do not bleach or burn, even in the most intense sun heat. The flower, of immense size, can be grown to 13 inches and over in width by 7 to 9 inches in depth, and are held high above the luxuriant foliage on stiff stems. Plant grows to five feet in height, wide spreading and many branched, each branch being crowned by a giant bloom. It is no uncommon thing to see two to five giant blooms on a plant at a time. 	Plants	Roots
MISS ELSIE JANE (Dahliadel 85C 87E), 1934, Bloom 6 x 4, Bush 5 ft. This variety is continuing to win on the exhibition table, especially in the basket and arrangement classes as it is just about the most artistically formed dahlia we have ever seen. In color, too, it is unique, being a shrimp pink with cream shadings at center and tipped violet rose, a fine and useful color combination....		.50
MRS. GEORGE LE BOUTILLIER (Ruschmohr 85E), 1935, Bloom 10 x 5, Bush 5 ft. As an exhibition dahlia this variety did considerable winning last season and has been shown 14½ inches in diameter. It has given Murphy's Masterpiece plenty of competition as it is quite similar in form and also a red, but this one is described as a carmine red50	.75
MURPHY'S MASTERPIECE, I. D. (87), LL., 4 to 5 ft. Immense dark red that takes its place as one of the outstanding exhibition varieties of all time. OAKLEIGH MONARCH (Oakleigh 85), Bloom 9 x 5, Bush 5 ft. Certified at East Lansing.....	.75	1.00

SATAN , S. C. (93), LL., 6 ft. Here is one that should be in every garden. Color, a flaming red with a slight touch of gold at the center. The exquisite coloring is at once fascinating, but what formation and stems. The blooms regularly measure from 10 to 12 inches in diameter and 6 inches in depth, and the long horn-like petals so perfectly rolled and incurved give rare form and character to a flower of unusual brilliancy. The rugged almost leafless stems give the impression of being nearly as thick at the top as at the base.....		.50
